

Michael Pockoski, P.E.

Mike Pockoski is the Ground Improvement Division Leader at Helical Drilling, a design/build contractor specializing in the development, design, and installation of ground improvement systems throughout the Northeast. Mike holds a Bachelor of Science degree in Civil Engineering from Worcester Polytechnic Institute and a Master of Science degree in Civil Engineering from Virginia Tech. With over two decades of experience in geotechnical engineering, Mike began his career as a consultant with GZA GeoEnvironmental and Kleinfelder. He later joined Geopier Foundation Company, where he served as Eastern Area Manager for nearly 15 years. During his tenure, Mike was instrumental in the development and analysis of innovative ground improvement technologies, including Rammed Aggregate Piers and Rigid Inclusions, and oversaw the design and construction of several thousand ground improvement projects across the eastern United States and Canada.
