

John Anderson

Conference Chair John Anderson is president of Specrete-IP Incorporated, the manufacturer of grout fluidifiers used in augercast pile grouts and other foundation elements. He is also the committee chair of DFI's Manufacturers, Suppliers and Service Providers.

Anderson has more than 40 years of experience in the concrete and grouting industry. He spent eight years with Master Builders (now BASF) working with both prepackaged grouts and concrete admixtures, was president of the Spray-Cure/ChemMasters Company in Ohio from 1986–1995 and has been with Specrete since then.
