

Jon Sinnreich, P.E.

Program Chair Jon Sinnreich, P.E., is a senior project engineer with GRL Engineers in the Gainesville, Florida, office. He serves as chair of the Seismic and Lateral Loads Committee and is an editorial board member for DFI Journal as well as current chair of ASTM Subcommittee D18.23 (Field Instrumentation Subcommittee under D18 Soil and Rock).

Sinnreich has participated in hundreds of international bi-directional test projects and led research and development efforts on various technologies, including ultrasonic shaft profiling. While coordinating University of Florida research at the Powell Family Structures and Materials Lab, he oversaw projects dealing with wind engineering and natural hazards.

He earned a bachelor's degree in civil engineering and a master's degree in structural engineering at the University of Florida, and previously worked for Fugro Loadtest.
