

## **Edward E. Belk, Jr., P.E.**

Edward E. Belk Jr, P.E., is the Director of Civil Works for the U.S. Army Corps of Engineers at their national headquarters in Washington DC. Mr Belk is responsible for the development, defense and execution of the U.S. Army Corps of Engineers' Civil Works Program across the United States and its territories and across all national accounts (Investigations, Construction, Operations and Maintenance, Mississippi River and Tributaries) and business lines (Navigation, Flood Risk Management, Ecosystem Restoration, Hydropower, Recreation and Emergency Response). He has spent the majority of his professional career on and along the Mississippi River with focus on the design, construction, operation and maintenance of large scale river improvements, port development, bank stabilization programs and flood control systems. Mr Belk was selected by the Secretary of the Army into the Senior Executive Service in 2012 and is a Past President of the Memphis Post of the Society of American Military Engineers. He earned both a BS in Civil Engineering and MS in Engineering Management from Christian Brothers University in Memphis, TN. He earned selection into Tau Beta Pi and has also completed additional coursework at Harvard University and Cal Berkely.
