

April Fontaine

April Fontaine has nearly 25 years of experience in geology and geotechnical engineering and is currently the National Policy Advisor for Geotechnical Engineering at the U.S. Army Corps of Engineers at their Headquarters, remotely from her home in Sacramento. Prior to her current role she spent 21 years in the Sacramento District, most recently as the Geotechnical Engineering Branch Chief for 11 years. Ms. Fontaine serves on several Technical Working Groups for the Association of Engineering Geologists and several committees for the Deep Foundations Institute and has previously led leadership development programs. She is the current Chair for the USACE Landslide Committee and an instructor for several courses internal to the Corps of Engineers. She has a master's degree from Southwestern College and a bachelor's degree from the University of California, Davis and is a Licensed Professional Geologist in the State of California.
