

## **Darion Mayhorn**

Darion manages the Water Infrastructure Operations and Maintenance Branch within the Dam Safety and Infrastructure Directorate's Asset Management Division. His team serves as the bureau-lead and advisor for Reclamation's western water operations and water infrastructure facility management. Through policies, guidance, training, resources and tools, the O&M Branch equips Reclamation personnel to operate and maintain Reclamation's water-related facilities in a safe and reliable manner.

Mayhorn previously served as Reclamation's Drought Coordinator, where he managed the Drought Response Program. Mayhorn also served as a civil engineer in Reclamation's Oklahoma-Texas Area Office. Located in Oklahoma City, Mayhorn was a member of the Facility Operations Group where he was responsible for inspecting, maintaining, and providing engineering support for Reclamation's infrastructure in southern Kansas, Oklahoma, and Texas.

Mayhorn received his bachelor's in Civil Engineering and Applied Math from Saint Louis University, and a master's in Civil Engineering from the University of Oklahoma. He is a registered professional engineer in the state of Colorado.
