

Matt Caskey, P.E.

Matt Caskey, P.E., is vice president with DuroTerra, and leads sales and strategic initiatives for the company. DuroTerra is the North American provider of Ductile Iron Piles (DIPs), which offer a high-value alternative for projects that require micropiles, helical piles or any deep foundation application subject to constrained access.

Caskey has more than 30 years of experience in geotechnical design and foundation construction. He received his bachelor's degree in civil engineering from the University of Missouri – Columbia, and his master's degree in civil engineering from the University of Memphis. He is a registered professional engineer in the states of Tennessee, Arkansas, Mississippi and Missouri.

Before working at DuroTerra, Caskey was the director of sales at Geopier Foundation Company, where he worked for 21 years. He began his career in 1994 as a geotechnical engineer and department manager for PSI (now Intertek/PSI) in Memphis.

He is past president of the Memphis Branch of ASCE, past president of the Tennessee Section of ASCE and is past chair of the Tennessee State Geo-Institute. He currently serves on the Board of Directors for the Tennessee State Geo-Institute and on the Local Involvement Committee (LIC) with the Geo-Institute. He also serves on the DFI Student Engagement Committee.
