

Gregory DiMillio

Gregory joined GZA in 2020 as an engineer in GZA Providence's geotechnical group. He graduated from the University of Rhode Island with a B.S. degree in Civil Engineering in 2020 and from the University of Oklahoma with a M.S. degree in Civil Engineering in 2024. He has provided geotechnical engineering services for projects involving shallow and deep foundation construction, earthwork, subsurface explorations, ground improvement, and general construction observation. His experience includes on site observations of geotechnical construction, design and analysis of deep foundations, shallow foundations, retaining walls, and ground improvement. He was heavily involved in the Connecticut State Pier project in New London, CT.
