

Glenn R. Santulli, P.E.

Glenn R. Santulli, P.E. is a project engineer at GRL Engineers, Inc. from the Pennsylvania office. Glenn has over 10 years of industry experience in deep foundations. He started his career as a field engineer for a general contractor in Philadelphia for a highway/bridge project and has now been with GRL Engineers for 8 years. He has 8 years of experience in deep foundation testing, analysis and consulting services, where he focuses on static and dynamic testing of drilled and driven deep foundations, quality testing of drilled foundations, testing of existing deep foundations (static or dynamic), and offshore and nearshore dynamic pile testing and dynamic pile monitoring. Glenn has performed high strain dynamic testing on pile diameters ranging from 4-inches to over 30 ft. Glenn is a registered professional engineer in Pennsylvania, New Jersey, New York, and Washington D.C.

Glenn has published papers including “Load Testing Drilled Displacement Piles in Difficult Conditions: Jane Hotel Project in Manhattan New York” and has presented case studies at geotechnical seminars. Glenn holds a M.S. and B.S. in Civil Engineering from Drexel University in Philadelphia PA, where he concentrated in Structural Engineering.
