

Chris Ramsey, P.E.

Chris Ramsey is a Principal Engineer at Schnabel Engineering. He received his Bachelor of Science in Civil Engineering from the University of Cincinnati. As Principal Engineer, he performs foundation and pile cap design, deep foundation designs, ground improvement systems, underpinning, permanent and temporary retaining wall and support of excavation designs, finite element analyses, as well as slope stability analyses and designs for repair. He is a licensed PE in eight states and the District of Columbia. Chris is an active member of the Deep Foundations Institute, ASCE and Geo-Institute. He is the current chair of the DFI Technical Committee for Deep Foundations for Landslide and Slope Stabilization.
