

Kimberly Martin, Ph.D., P.E., ENV SP

Kimberly Martin is a Senior Engineer at Keller-NA. In her current role, she is responsible for developing and implementing Keller's sustainability strategy in North America, which includes leading innovation initiatives to support Keller's carbon targets. Kimberly previously worked in the oil and gas industry as a lead geotechnical engineer on global development projects. She is the past chair of the Arizona Geo-Institute and is the current secretary of the Geo-Institute's Sustainability in Geotechnical Engineering Committee. Kimberly also sits on the DFI's sustainability committee and serves as co-chair of the EFFC-DFI Sustainability Guides Task Group. In addition, she is a member of the editorial panel for Engineering Sustainability, a journal published by the Institute of Civil Engineers. Kimberly has published over ten peer-reviewed journal and conference papers. Kimberly holds a BS in Civil Engineering from the University of Arizona, an MS in Geotechnical and Geoenvironmental Engineering from The University of Texas at Austin, and a PhD from Arizona State University, where she was a member of the Center for Bio-mediated and Bio-inspired Geotechnics.
