

Jesse Rauser, P.E.

Jesse is the Assistant Geotechnical Engineer Administrator at the Louisiana Department of Transportation & Development. He is a member of ASCE and DFI and also serves on the Pile Driving Contractors Association's Technical Committee as well as the TRB Standing Committee on Structural Foundations. He is a geotechnical engineer with 23 years of experience.

Jesse recently co-authored "From Boxes to Bytes" for *GeoStrata* and "Enhancing Deep Foundation Practices in DOT Projects" for DFI's *Deep Foundations* magazine. He received his BS and MS degrees in Civil Engineering from Louisiana State University in 2003 and 2008, respectively.
